CPC30711 - Certificate III in Rigging

Course Overview

This qualification provides a trade outcome in rigging operations. Riggers assemble and install rigging gear such as cables, ropes, pulleys and winches to lift, lower, move or position machinery, structural steel and other heavy objects. Riggers mainly work outdoors on construction sites, but can also work on ships, in factories and mines, and in the entertainment industry in setting up stages, etc.

Job Roles

Job roles and titles vary across different sectors. The main title is Rigger.

Target

Those who would like to gain employment in the Rigging industry or are currently working in the Rigging industry and want to formalise their skills and experience.

Entry Requirements

Minimum age 18 years, good command of English Language and basic maths ability. You will be required to bring your own hard hat and safety glasses and wear a hi-visibility vest or shirt, long pants and steel cap boots. These items will not be supplied.

Assessment

Assessment is conducted over the duration of the course using a combination of realistic workplace tasks, knowledge tests and practical observations.

On Successful Completion

A qualification for CPC30711 - Certificate III in Rigging will be issued.

Course Duration & Delivery Options

Duration is dependent on whether you currently work in the industry and have experience or whether you are new to the Rigging industry.

This qualification is delivered in a clustered format which enables participants to only attend the training sessions for the Units of Competency / Licences that they haven't already acquired from another Registered Training Organisation.

Participants who have worked in the Rigging industry and haven't yet formalised their skills and experience are welcome to apply for Recognition of Prior Learning (RPL) to gain some or all of the units of competency in this qualification. Please ask us how to proceed with RPL.
